Family Scarecrow Competition

1st: Malin Sachs aged 8, plot no 62F
Judges' comments: *This scarecrow best fulfilled the brief. Such a creative and original piece of work. Imaginative use of recycled materials and herbs from the plot. Rosemary used for the mane and tail (hence the name), sage for the ears and a dibber for the horn!*

2nd: Forrie and Ernie Hunt, ages 11 and 6, plot no 22
Judges' comments: *Very clever idea using a crow as inspiration for a "Scarecrow". Good use of recycled material: using cafetiere filters and forks for the claws. The claws jingle jangle in the wind & will scare off any bird. The wings combining netting and chicken wire- again very inspired use of material.*

3rd: Thea Rigge aged 2, plot no 83
Judges' comments: *A well-executed traditional scarecrow with a hawk companion. A friendly giant tribute to Grandpa. Good use of recycled clothes, wool, old netting and newspaper which impressed the judges.*
